Middle Canyon Announces Partnership with Flex

Bringing Flexible, Scalable and Affordable Data Center Servers to Defense Market Segment

Carmel Valley, California – Middle Canyon is proud to announce it has entered into an agreement with [Flex](#), to deliver adaptable server appliances to demanding data center markets. Customers will benefit from the world-class design and manufacturing experience of Flex, applied to the robust and economical product line offered by Middle Canyon.

Flex is a leading sketch-to-scale solutions company that designs and builds intelligent products for a connected world. With approximately 200,000 professionals across 30 countries and a promise to help the world Live smarter, Flex provides innovative design, engineering, manufacturing, real-time supply chain insight and logistics services to companies of all sizes in various industries and end-markets.

One advantage of Flex's sketch-to-scale methodology is the ability to create highly customizable solutions, and Middle Canyon's build-to-order relationship with Flex enables the creation of highly competitive, customized products for discerning customers.

"As the demanding requirements for cloud-enabled data centers in the defense market segment increase, Middle Canyon is well-positioned to provide reliable, scalable and affordable options," said Jeff Hookailo, President of Middle Canyon. "And with its technical know-how and manufacturing expertise, Flex is the ideal partner as we enter this growing market."

"Middle Canyon has established a solid reputation for integrity and reliability in the defense and aerospace markets," said Caroline Dowling, president of Integrated Network Solutions at Flex. "We are proud to be partnering with them, and excited to be expanding our presence in the dynamic markets they represent."
